

NEXT LEVEL PROTECTION

INTEGRATED AIRBAG RANGE

WITH **inmotion**
A I R B A G

RST ARE PROUD TO BE WORKING WITH IN&MOTION – EXPERTS IN ENGINEERING WEARABLE AIRBAG SYSTEMS.

Just as armour is integrated into garments, we believe the best way to improve rider safety is to fully integrate In&motion's airbag technology into RST garments.

Our range of integrated airbag garments combine ergonomic designs, feature-rich specification, and high-end safety protection.

As with all our garments, the Airbag Range is fully tested to extremes, across global climates and terrains. We use our factory riders to inform us on how our designs fair to ultimately improve our product development.

AIRBAG RANGE BENEFITS

COMPREHENSIVE

- One box – multiple riding opportunities
- Wireless – no cables or sensors required

ULTIMATE PERFORMANCE

- Protects the thorax, abdomen, spine and collarbone
- Fully CE certified garment, armour, airbag and integrated back protector required

COMFORTABLE TO WEAR

- Ergonomic design – garments designed with the airbag in mind
- Breathable 3D mesh ensures comfort when in use

EASY TO USE

- Three algorithms – street, track or adventure
- Electronic airbag detection system has embedded algorithms to activate the airbag

ULTIMATE COMFORT. UNPARALLELED PROTECTION.

HOW DOES IT WORK?

THE INTELLIGENT AIRBAG SYSTEM IS BASED ON AN EVOLVING PHILOSOPHY:

DETECT

Thanks to embedded algorithms the smart In&box system analyses the rider's movement 1000 times a second to detect a fall

PROTECT

In less than 33ms (detection) and 22ms (inflation), the airbag cushion is inflated to protect the most sensitive body areas

PERFECT

The In&motion software collects all data to constantly improve its algorithm, offering even better customised protection

- + Integrated CE Certified Level 1 back protector (according to EN 1621-2 standard)
- + Reusable - After inflation deployment, the inflator can be changed by the user (up to 3 times)
- + Body areas protected: Spine, thorax, abdomen and collarbone

GET THE IN&BOX

SIMPLY:

1. **PURCHASE YOUR RST AIRBAG GARMENT**
Please note, the garment is currently without the In&box required to make the airbag system work.
2. **ORDER THE IN&BOX**
Purchase your membership and register your garment online to trigger the delivery of the In&box to you. Scan the QR code or visit my.inemotion.com/rst
3. **ACTIVATE THE IN&BOX**
Once you have received the In&box, download My In&box app to activate it.
